RECALL

SEED ROUND · NOVEMBER 2026

Your brand, *on the streets tonight*

Moving LED screens on delivery and bike-taxi two-wheelers in Hyderabad. Brands pay by the bike-hour, never per view.

₹5 Cr
seed we are raising

Built
platform, tested

Aug 2027
POC starts

Prateek Medikonda, founder · Confidential

RECALL IN ONE MINUTE

Screens on the bikes already on every street

₹3 Cr

POC revenue

40 brands × ₹2.5 L a month × 3 months, plus GST

₹1.47 Cr

POC cost, about

Riders, team, running costs and buffer. The POC adds about ₹1.53 Cr.

Built

The whole platform

Rider app, brand portal, staff portal, screen player, billing ledger

₹5 Cr

Seed we are raising

Plus ₹3 Cr round 2 in March 2028, ₹8 Cr in all

First profit in **February 2028**. Most cash used: ₹2.30 Cr; the bank never falls below ₹2.70 Cr.

Then: **15,500 bikes in 5 cities by 2031**, with ₹557 Cr of revenue we keep and ₹156 Cr profit before tax.

Source: model v5.4 (5 Nov 2026). Revenue we keep = billed, less agency and aggregator cuts. Before GST.

THE PROBLEM

Offline ads are costly and blind

Online is crowded

Feeds are packed. Ads get skipped and forgotten.

Offline is costly

Hoardings need big budgets and long lock-ins.

Offline is blind

A hoarding cannot tell a brand who saw it, where or when.

RECALL is an alternative to offline: hoardings, pamphlets and newspaper inserts. Not another online ad platform.

THE INSIGHT

The back of every delivery bike is a screen. *Nobody sells it.*

01

Riders are on every street, all day: homes, offices and markets.

02

We pay them for every moving hour inside our areas.

03

Brands pay only for bike-hours, with proof of every play.

THE SCREEN

A 28-inch screen that runs itself

28-inch P2.5 LED, up to 5,000 nits
Readable in sunlight, dims itself at night. IP65 front.

11-hour battery
768 Wh LiFePO4: about 11 hours at about 60 W.

Android box with 4G and NavIC GPS
Saves ads and replays them. Plays only inside our areas.

Every play signed on the screen
The cloud never invents a play. Billing uses only these records.

2 MP AI camera that only counts people
Pictures wiped in under a second. No video stored or sent, no faces. Counts are never billed.

Kit v2.1, before GST: ₹49,100 a POC kit (screen part ₹47,300 + camera ₹1,800), ₹41,600 a new bike, cap ₹52,000 · Road test: 4 kits on 3 bikes, 25 Jan – 8 Feb 2027 · Illustration.

WHAT BRANDS BUY

Brands buy whole bike-hours, nothing else

PEAK	NORMAL	LITE
₹300	₹250	₹220
8–11 am, 5–11 pm	11 am–5 pm	11 pm–2 am

Prices per bike-hour, plus 18% GST.

One bike-hour = 240 spots of 15 seconds

- Full bike-hours only, no shared slots: on that bike, in that hour, only that brand plays.
- At least 5 bikes and ₹15,000 a booking, paid in advance, plus 18% GST.
- Offers only for long plans: 6 months 8% off, 12 months 12% off.

THE PROMISE

Madhapur, Tuesday 5–6 pm, 20 bikes

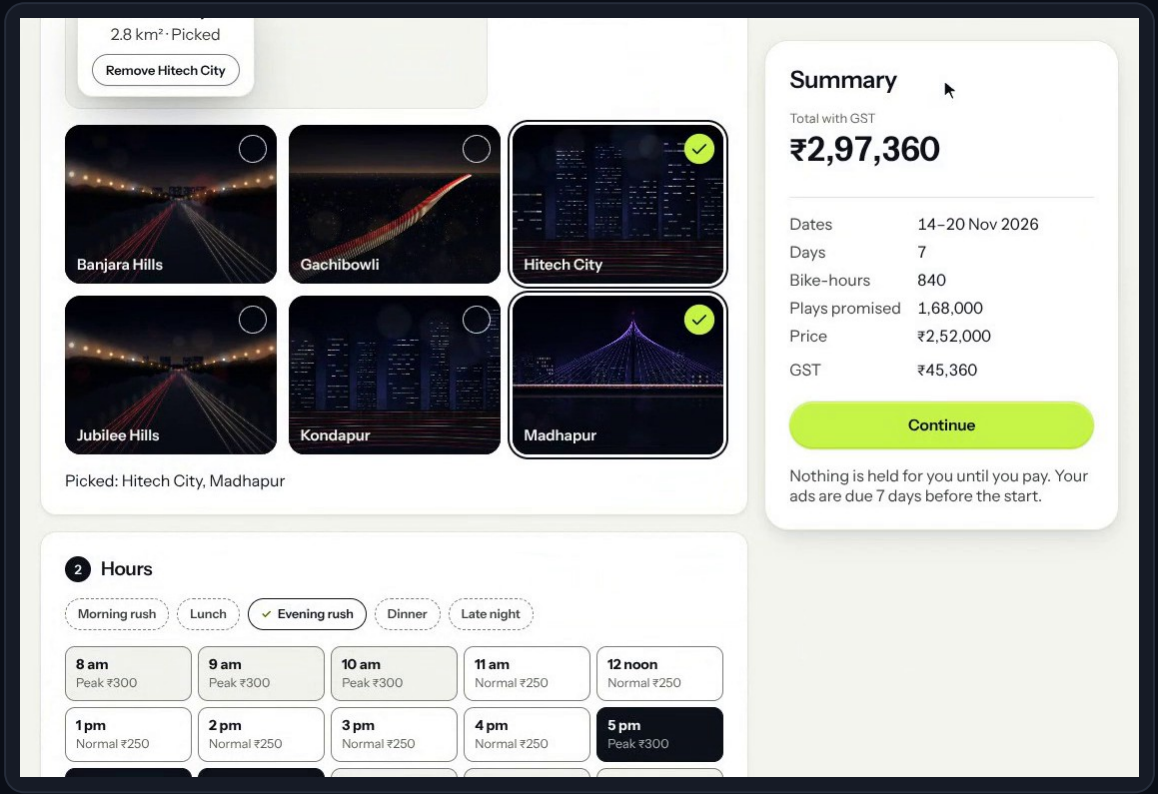

4,000 plays

inside Madhapur in that hour, on at least 20 different bikes.

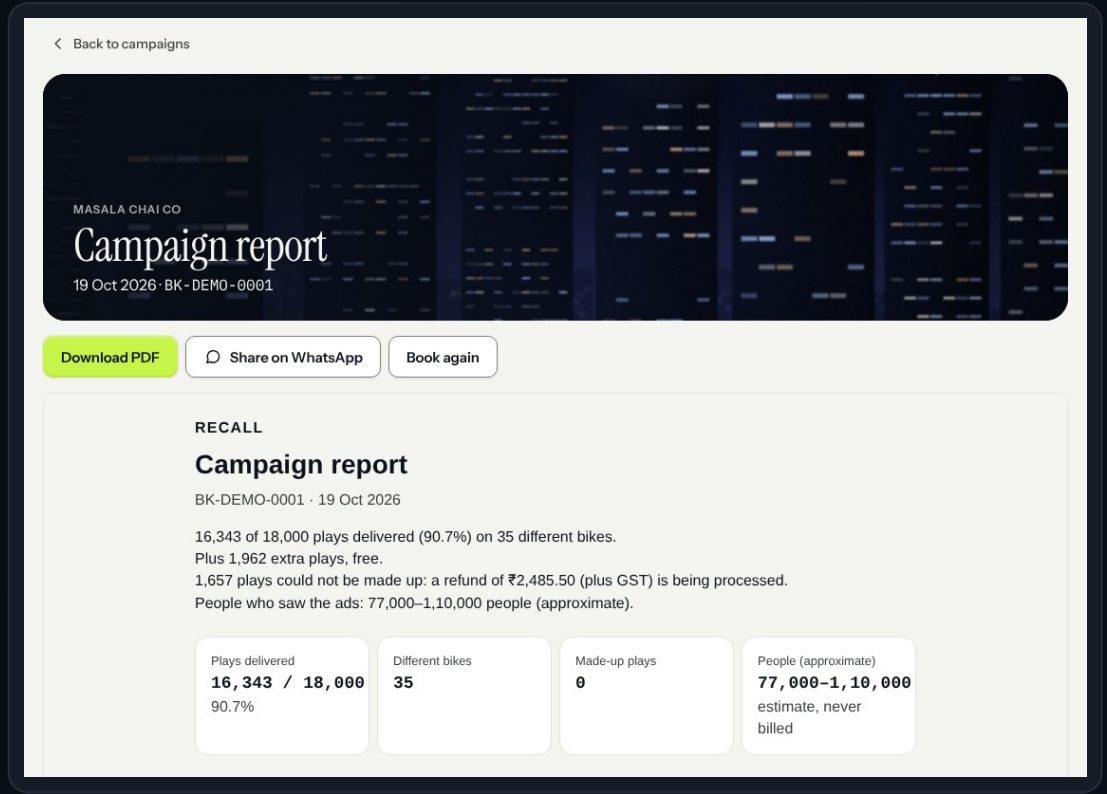

If short: made up within 2 hours in that area, else the same hour next day, else refunded.

Never billed per view. People counts are estimates.

Brands book in minutes and get proof after

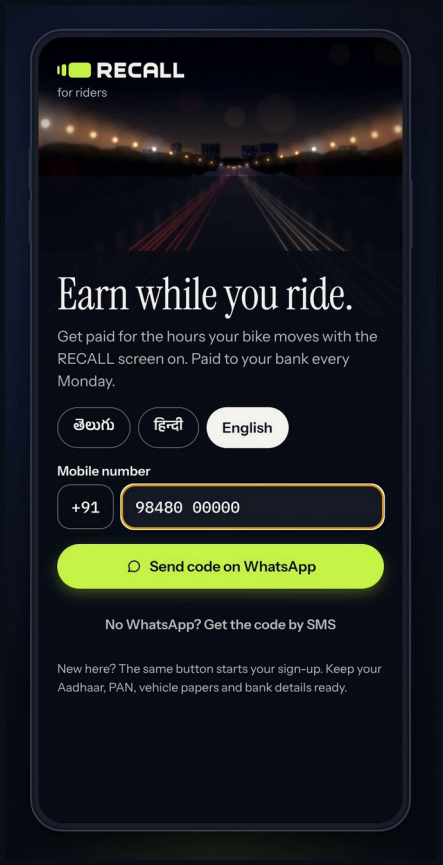

Book: pick areas, hours, days and bikes. The price shows at once.

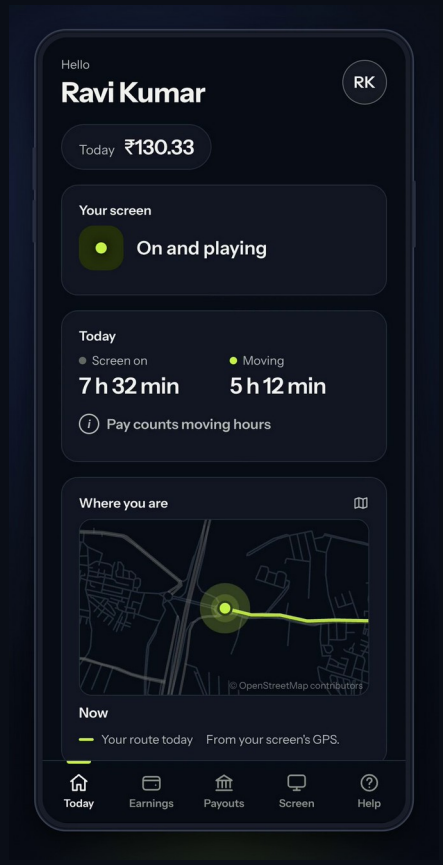

Report: plays delivered, different bikes, make-ups, and people (an estimate, never billed).

Riders see every rupee they earn

- Sign in with a WhatsApp code
- Telugu, Hindi or English
- Pay counts moving hours only, from the screen's GPS
- Paid to his bank every Monday
- Screen status, today's route, earnings by day and month

Welcome

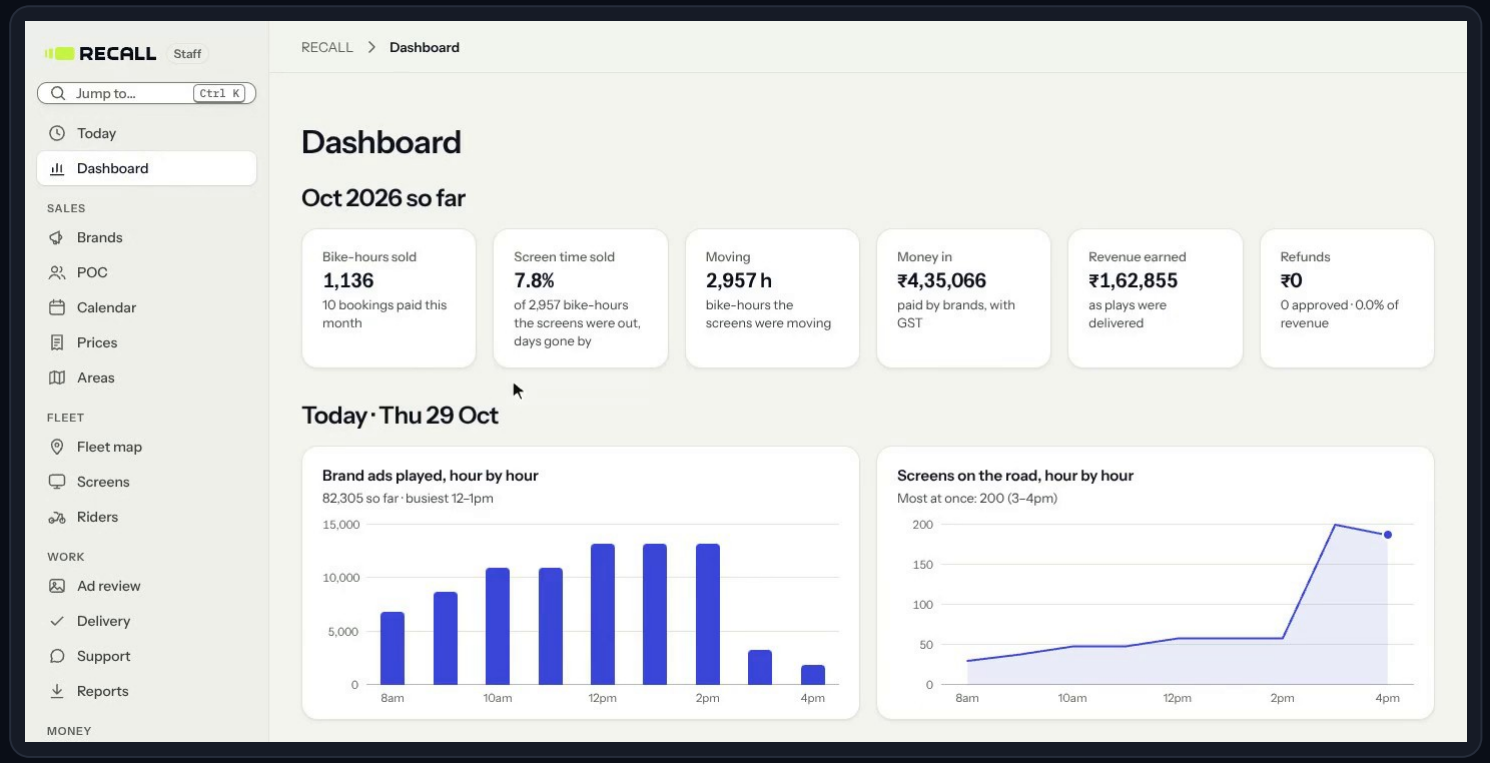

Today

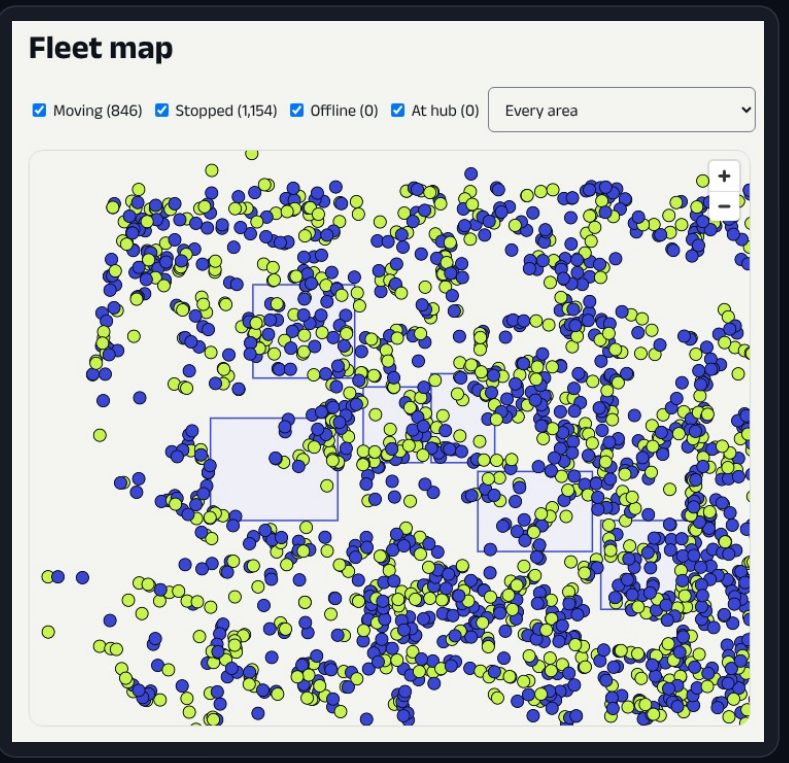

Earnings

One portal runs the whole fleet

Dashboard: bike-hours sold, money in, plays hour by hour.

Fleet map: 2,000 simulated bikes on Hyderabad roads.

Also: areas, prices, ad review, POC, riders, payouts, money and an audit log. Every change is logged.

Riders earn by the hour and own the screen

AFTER THE POC

₹25 a moving hour + 25% of sales

- The 25% is of what his hours sold, after the agency and aggregator cuts.
- About ₹13,350 a month at 70% sold; about ₹11,560 in hand while he repays the screen.
- Outside our areas: no pay, and the screen is blank.

DURING THE POC

Fixed ₹2,000 / ₹4,000 / ₹6,000 a month

- Plus a founding bonus up to ₹6,000 a month: full at 150 moving hours, in proportion from 100.
- Up to ₹8,000 / ₹10,000 / ₹12,000, paid weekly.
- ₹3,000 for finishing and keeping the screen: his loan down payment.

THE SCREEN LOAN

Dhanlaxmi Bank lends, the rider owns

- New riders: ₹47,300 with GST, all financed, no down payment. EMI about ₹1,771.
- POC riders: ₹55,800 with GST; the ₹3,000 bonus is the down payment, ₹52,800 financed. EMI about ₹1,977.
- 36 EMIs after a 3-month holiday. Never on our books; the camera stays ours.

Riders get about ₹37 of every ₹100 billed (Dec 2028). Screen part ₹47,300 / ₹40,100 before GST (POC / new). Paid hours capped at 260 a month.

UNIT ECONOMICS

Each bike earns a profit from 2028

One bike, one month · Dec 2028 · 2,000 bikes · 70% sold

Billed to brands	**₹36,750**
We keep, after 12% cuts	**₹32,300**
Rider pay	**−₹13,500**
All other costs and buffer	**−₹12,600**
Profit before tax	**₹6,200** 19%

At 15,500 bikes (Dec 2031): ₹9,100 a bike a month, 28%.
Break-even: 46% sold at 2,000 bikes, 37% at 15,500.
An unsold moving hour costs ₹25; a sold one adds about ₹70.

Source: model v5.4 (5 Nov 2026). Before GST, rounded to ₹100. Tech is subscriptions only (the platform is built): about ₹1 of every ₹100.

40 brands, 200 bikes, 3 months

40 brands

₹2.5 L + GST a month each, by bank transfer before each month starts.

200 bikes

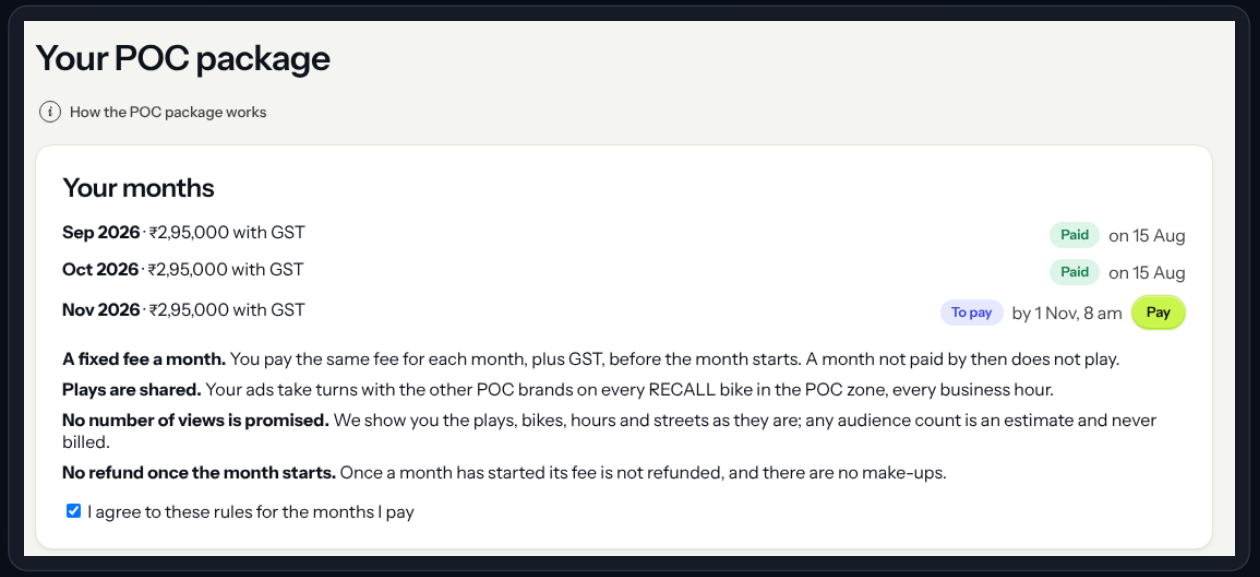

Within 15 km of Hitech City, from 8 am to 2 am.

Every bike-hour

5 plays for each brand + 40 RECALL spots. Bikes on one street show different brands.

Nothing promised beyond plays

Each brand sees its plays, bikes and streets. No views promised, no make-ups.

The POC page in the brand portal (demo data). Built and tested.

Why a POC: real plays, real riders and real invoices before regular selling starts in November 2027.

The POC pays for itself

₹3 Cr

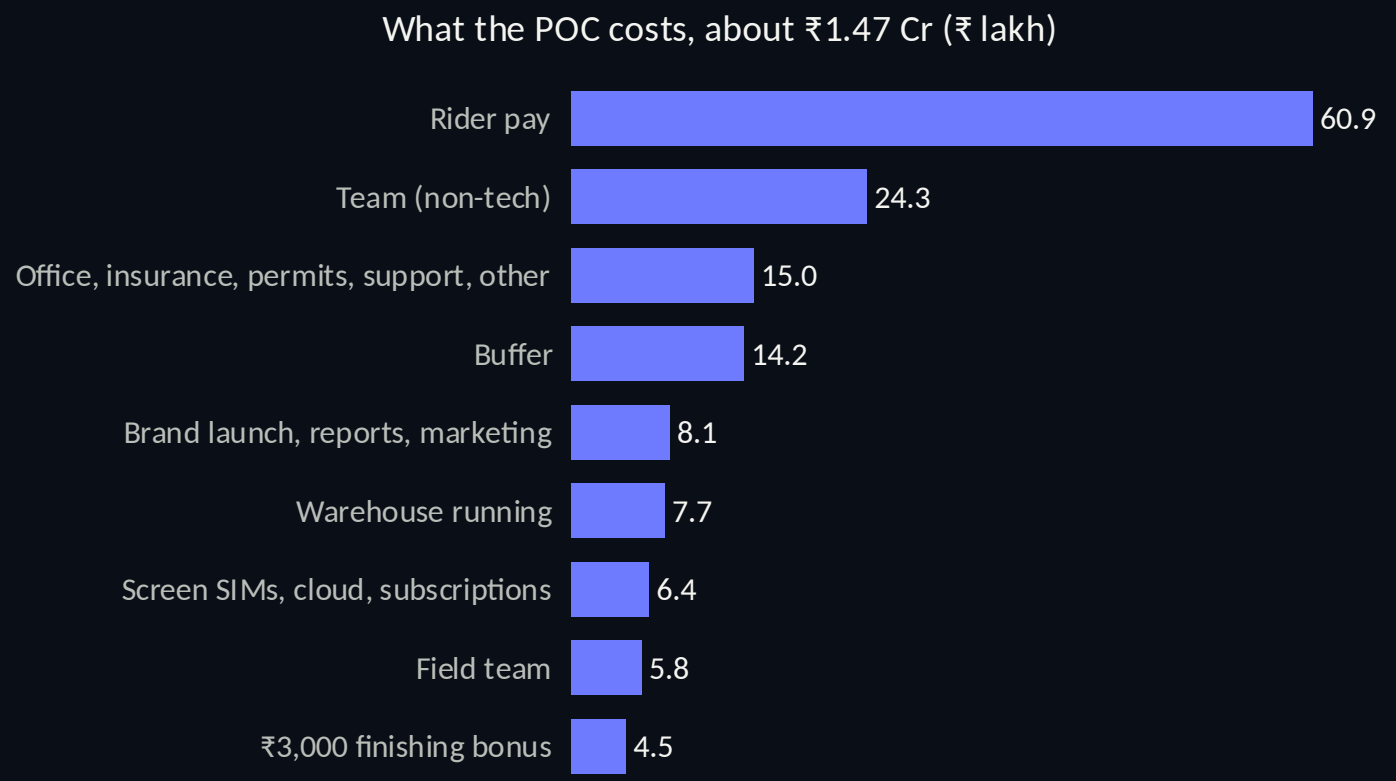

in from brands: 40 × ₹7.5 L for 3 months, before GST

₹1.47 Cr

about what the 3 months cost

₹1.53 Cr

POC profit. About 20 brands would cover the cost

210 Kit v2.1 kits (₹49,100 each before GST, ₹1.03 Cr) are bought before the POC, outside this cost. Screen loans pay ₹71.0 L back in Nov 2027. Model v5.4 (5 Nov 2026).

TECHNOLOGY

The platform is built and tested

Rider app
Sign-up, hours, pay, help

Brand portal
Book, ads, pay, reports

Staff portal
Fleet, areas, POC, payouts

Screen player
Android, plays offline

Billing ledger
Double-entry, in paise

Fleet simulator
Up to 15,500 bikes

TESTED

- Ledger always balances (thousands of random tests)
- No play counted twice; never over 240 a bike-hour
- 15,500 screens reporting every 30 seconds
- Payout run for 15,500 riders in 2.5 minutes
- Our own security review: no high-risk findings open

Still to do: real service accounts, outside security audit (₹2 L, Jun 2027), road test of 4 sample kits on 3 bikes (25 Jan – 8 Feb 2027).

₹2.9 L
tech before the POC (the old plan had ₹78 L)

₹2 L
outside security audit, Jun 2027

₹9.2 Cr
all tech 2027–31; no tech team, CTO optional

A large offline market, and room to lead

₹5,500 Cr

Indian outdoor advertising (IOAA)

2,600–4,100

brands in Hyderabad (our estimate)

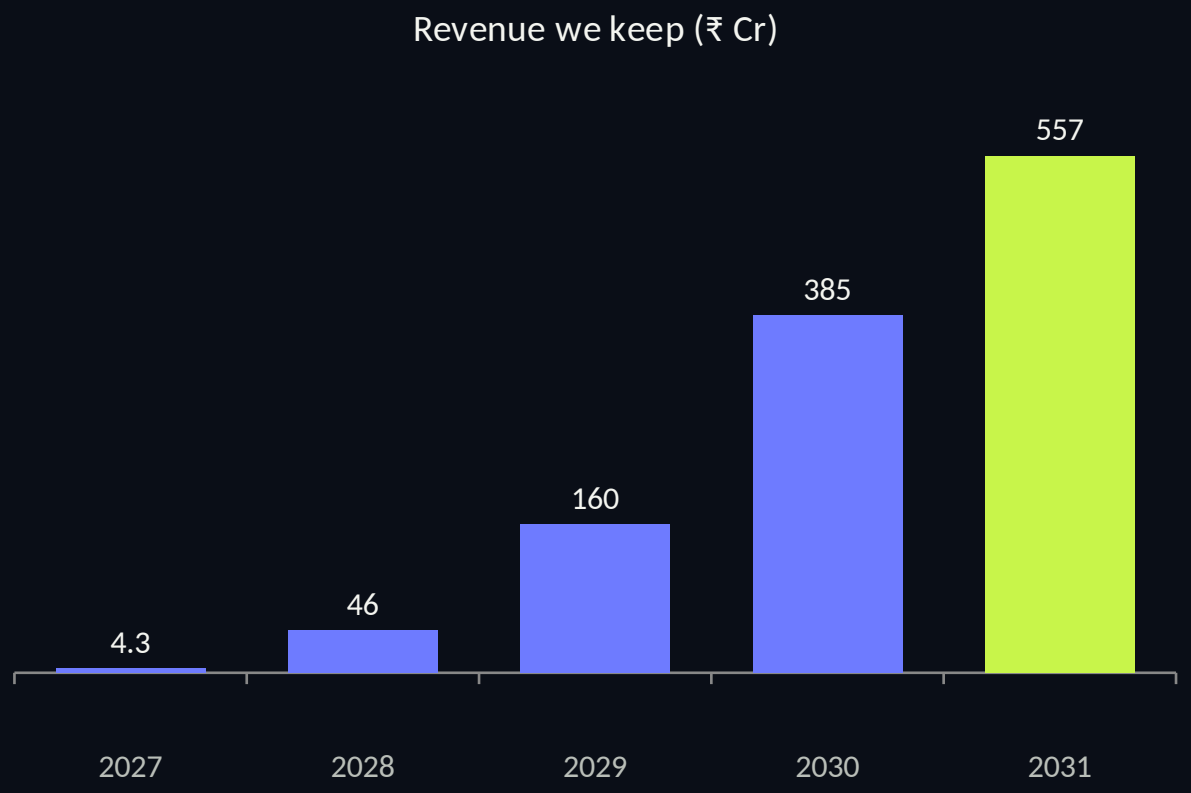

≈ 715

brands to serve by Dec 2028: about ₹7.5 Cr billed a month

Who	What it is	What we note
Hoardings, pamphlets	Fixed spots or one-off prints	Costly, and no proof of who saw it
AdOnMo	About 50,000 mostly fixed screens	FY25 revenue ₹134.4 Cr, loss ₹33.1 Cr (Inc42)
Gojek GoScreen	Motorbike top-box screens, Jakarta, 2020	Sold reach, not hours; no public news since 2021
RECALL	**Screens on two-wheelers in every lane**	**Sold by the bike-hour; every play signed**

THE PLAN

15,500 bikes in 5 cities by 2031

Year	Bikes	Cities	Revenue kept	Profit before tax
2027	200	1	₹4.3 Cr	−₹0.98 Cr
2028	2,000	1	₹46 Cr	₹6.95 Cr
2029	6,300	2	₹160 Cr	₹37.9 Cr
2030	12,450	4	₹385 Cr	₹105.2 Cr
2031	**15,500**	**5**	**₹557 Cr**	**₹156.5 Cr**

Cities: Hyderabad, then Bengaluru (2029), Pune and Chennai (2030), Mumbai (2031).

Billed in 2031: ₹633 Cr before cuts. Bank in Dec 2031: ₹233 Cr.

Source: model v5.4 (5 Nov 2026), 70% of hours sold, before GST. ₹8 Cr raised in all. Estimates, not guarantees.

MILESTONES

From seed to five cities

Nov–Dec 2026
Mount and hinge design; 4 road-test kits ordered

25 Jan – 8 Feb 2027
Road test: 4 sample kits on 3 bikes, 15 days

Aug–Oct 2027
POC: 40 brands, 200 bikes

Feb 2028
First profitable month

Dec 2028
2,000 bikes in Hyderabad

Jan 2027
₹5 Cr seed closes

Feb–Jul 2027
Sign 40 brands, open the warehouse, fit 200 screens

Nov–Dec 2027
~150 riders take screens on bank loans; selling starts

Mar 2028
₹3 Cr round 2

2029–2031
Bengaluru, Pune, Chennai, Mumbai: 15,500 bikes

A new city opens only after the cities before it are profitable 3 months in a row.

The risks, and what protects us

Risk	What protects us
Brands buy fewer hours than planned (plan: 70%)	Break-even is 46% at 2,000 bikes. We add bikes only above 55% sold.
Rules on ads on two-wheelers	Written legal answers before the 210-kit order. Permits: ₹300 a bike a month.
Camera privacy	Counting happens on the chip; no video stored or sent; no faces. DPDP check before the POC.
Riders leave	Weekly pay, a ₹3,000 finishing bonus, and the rider owns his screen.
Screens fail on the road	Road test of 4 sample kits, 25 Jan – 8 Feb 2027, before the 210-kit order.
Cheating on GPS or plays	Every play is signed on the screen. The cloud never invents a play.

Gates: no fleet hardware before written legal answers · kit cost capped at ₹52,000 · a new city only after 3 profitable months · even at 50% sold, the bank stays above ₹2.7 Cr.

TEAM AND STATUS

Who builds it, and where we stand

FOUNDER

Prateek Medikonda

[Background and past roles: to confirm]

Founder salary ₹2.5 L a month from Jan 2027, paid from the seed.

HIRING FROM THE SEED

Sales lead	Feb 2027
Operations lead	May 2027
Warehouse manager	Jun 2027
CTO	Optional
Advisors	[to confirm]

BEFORE THE SEED CLOSES

Legal opinion	In progress
Dhanlaxmi term sheet	In progress
Mount design	Nov–Dec 2026
Company and cap table	[to confirm]
Brand letters of intent	None yet

Status at 5 Nov 2026. Pre-revenue: no brand, bank or regulator has committed yet. Headcount 29 at end-2027, 51 in 2028, 220 in 2031; no tech team.

THE ASK

₹5 Cr seed now, ₹3 Cr round 2

₹5 Cr

seed, January 2027

₹3 Cr

round 2, March 2028, raised on POC data

WHAT THE SEED PAYS FOR

₹2.02 Cr	Before the POC: 210 Kit v2.1 kits (₹1.03 Cr before GST), road test, warehouse, team, legal, audit
₹1.47 Cr	The 3 POC months, which bring in ₹3 Cr
₹1.20 Cr	Screen stock for riders who join after the POC (Nov–Dec 2027)
₹2.70 Cr	Lowest money in the bank (Jul 2027). Most cash used: ₹2.30 Cr

Road test (≈ ₹7.25 L with GST, ₹4.9 L of it in Nov–Dec 2026): an early part of the seed, not extra money.
